YenMan.com joins NinjaTrader's 3rd Party Partner Program

Denver, CO, December 17, 2009 – NinjaTrader, LLC announced today the addition of YenMan.com to their 3rd Party Partner Program. YenMan.com members now utilize NinjaTrader as their primary platform for executing orders in the Yen and Euro dollar currency markets.

YenMan.com is the developer of 'The Plan' custom indicators used to identify high probability trade setups in the Yen and Euro currency markets. 'The Plan' is a pure technical analysis trading system that identifies specific entry signals and exit targets on a daily basis. Entry signals are identified on NinjaTrader charts and their members leverage the Chart Trader to quickly and seamlessly submit their orders within the same chart. They also utilize NinjaTrader's Advanced Trade Management (ATM) technology to create profit targets, stops and trailing stop strategies based on 'The Plan' methods and indicators.

"NinjaTrader's Chart Trader greatly enhances trade performance by allowing our members to see a trade entry signal and quickly execute their order from a single chart window" says Najib Taybi, President of YenMan.com. "The NinjaTrader platform combined with our powerful indicators is a true breakthrough for Yen and Euro currency traders."

About NinjaTrader, LLC

Founded in 2003, NinjaTrader, LLC (www.ninjatrader.com) has quickly emerged as a leading developer of high-performance trading software.
